Use of Non-GAAP Financial Information

This press release contains certain non-GAAP measures, namely, adjusted EBITDA from continuing operations, or adjusted earnings from continuing operations before interest, income tax, depreciation and amortization. Adjusted EBITDA from continuing operations represents earnings before interest or financing expenses, income tax, depreciation and amortization, and further eliminates the effect of stock-based compensation expense and other (income) expenses, net which includes a gain of \$0.3 million related to the sale of a building by OTI's South African subsidiary. OTI believes that adjusted EBITDA from continuing operations should be considered in evaluating the Company's operations since it provides a clear indication of the Company's operating results. This measure should be considered in addition to results prepared in accordance with U.S. GAAP, but should not be considered a substitute for the U.S. GAAP results. The non-GAAP measures included in this press release have been reconciled to the U.S. GAAP results in the table below.
